

IET Savoy Place

Premium washrooms by Petal for premier London event and meeting centre.

This premier event and meeting destination located in Central London undertook a dramatic £30 million renovation. Overhauling every area, the brief was to create a space built for the future. With our “Design that Lasts” philosophy and 10-year warranty, we are confident that the systems selected for this project will stand the test of time, both aesthetically and structurally.

The full height Esteem cubicles featuring hard wood edging, 44mm doors and bespoke fixings elevate the sense of quality and deliver total privacy for the washroom’s users.

The high level of material specification in the scheme included the use of 6mm toughened glass panelling throughout the APS.

Bespoke vanities were produced using 30mm polished granite tops and down-stands with sculptured rebates, supported on concealed cantilevered brackets with glass fronted under panels.

Petal supplied bespoke mirror housing units incorporating services with recessed facilities for soap dispensers and paper towels.
