

Bluecoat

Petal supplied and fitted high performance systems for the impressive Bluecoat centre.

Bluecoat Sports Centre is a private sports club incorporated as part of the historic Christ’s Hospital School, Horsham. Petal was appointed to supply and fit changing, showering and washroom cubicles and associated systems.

Petal’s robust Sprint system was chosen for changing and washroom facilities while the shower cubicles were specified as Petal’s Elan glass system.

A robust Action locker and bench system was chosen for use in this wet and dry application. In addition, Petal produced bespoke black granite vanity facilities and soft benching to the client’s specification.
