

South Lake Leisure

A Sprint Finish for South Lake Leisure Centre.

Petal had the pleasure of working with client Armagh, Banbridge and Craigavon Borough Council on the provision of premium washroom facilities for its brand new South Lake Leisure Centre.

Petal’s Sprint cubicles provided the perfect solution for this pool changing room environment, with the cubicle doors ideal for use in areas of high moisture. Action benches were also a robust choice, given they are manufactured with waterproof Compact Grade Laminate.

The layout was carefully designed to give ample space in areas of high footfall, and the hardwood effect laminate employed throughout toilet cubicles, changing room doors and lockers give a quality feel to this changing facility area.

Solid surface vanity tops are replicated in grooming areas and the surface mounted rectangular basins and trough units add to the streamlined finish.

Location	Contractor
South Lake Leisure Centre	Farrans Construction
Cubicle System	Client
Sprint cubicles	ABC Borough Council
Sector	Architect
