

PETAL

Cubicle + Washroom Systems

COMMERCIAL

DESIGN THAT LASTS

Our washrooms for commercial and office projects are designed to meet the needs of each brief.

We put our systems through more rigorous tests than most other manufacturers and guarantee our products for up to ten years.

That's why we can say with confidence '**Design that Lasts.**'

Rich, natural wood veneer

Flush inline design

Undermount bowls

Compact mirror housing system

PETAL

Based on more than 40 years of experience we have perfected the best way to manufacture & install washrooms for education, with hundreds of nurseries, schools, colleges and universities across the UK and Ireland all in our Supply & Fit portfolio.

Our values remain the same. We are ready to go the extra mile to make it happen within your budget and timescale.

Thank you for considering Petal as your partner for washrooms.

Patrick Monaghan
Managing Director

Designed to Perform

At Petal, we excel at delivering outstanding quality and style for mid range washroom applications.

Our range of washroom solutions for Commercial & Office environments is vast enough to ensure every client can enjoy a unique offering specific to the needs of their business.

With a wide range of colour options, the design can reflect the corporate identity of each organisation, and the robust materials used will ensure even the highest footfall locations will withstand the wear and tear of daily office use.

Why Petal?

Tamper proof fixings

All school washrooms, cubicle systems, changing room benches and toilet partitions adopt securely engineered dowelled fixings for superior tamper proof performance which avoids the need for ugly visible through panel fixings.

Outstanding strength

Petal's cubicle system design, which utilises either a floor fitted pilaster foot or a continuous leg, ensures exceptional strength compared to alternative systems which typically use pedestal legs and patch fittings.

Continuous wall channel

Our cubicle systems are typically fixed to the wall in a continuous aluminium channel which gives stability not seen in alternative cubicle systems which use single point cleat fixings.

Quality fittings

Our fittings are tried and tested over many years to ensure long service life and to enhance user experience.

Guaranteed Quality

Designed, manufactured and installed by one team

Installed by our own team of trained and skilled fitters.
100% commitment to delivering quality projects.

Petal does not take its brand statement Design That Lasts lightly.

Petal offers more choice with an outstanding range of finishes and the option to develop quality solutions for every washroom project.

We offer more service, with a dedicated team focused on delivering snag free installations, right first time.

Testimonial

“

Akor has worked with Petal Washrooms for many years on several Primark stores and has developed an excellent working relationship during that period. Petal provides the quality and level of service we expect for our clients and we can always count on them at all stages of the order process.

Cubicle Systems

PETAL

Duo

A versatile cubicle system, Duo is a great value range, capable of performing well in many applications.

Duo offers a 150mm floor clearance and is suitable for high traffic public and staff areas. The compact grade laminate also makes it ideal for use in damp installations such as showering applications. In every case the Duo system can avail of the huge range of colour and wood effect laminates in our latest Colour Collections.

PETAL

Duct & Access
Panels

Panel Options

The Petal duct panel system is highly versatile and can accommodate all wall and ceiling configurations.

Our technical department will translate your washroom plans into a detailed duct panel system which will enhance any washroom environment. Petal offer a fully bespoke service for duct panels so every system is produced in our workshops for efficient trouble-free installation on-site by our expert fitting teams.

Available Options

P100-HPL Square Edge
P200-HPL Postformed
P300-CGL Polished Radius
P400-Glass-Backpainted

Panel Overview

Robust factory assembled steel sub-frames form the support for the specified flash gap and face panel materials. This results in an extremely versatile solution which can accommodate the specific plumbing layout of each project.

A variety of practical panel fixing methods are available and will be discussed when the sanitary ware and plumbing choices are confirmed with details of any special requirements such as hinged or locked access etc.

Aesthetically, a wide range of panel materials, laminate finishes, panel and flash gap combinations are available and particular suitability can be discussed with our technical team.

Sample Service

Our Sales team are equipped with a full range of working samples for client approval and are happy to arrange a viewing at a location to suit you. We also have a full range of laminate colour samples available on request.

The latest Petal colour collections contain a vast array of solid shade and wood grain options. Our Surface Choice volumes 1 and 2 are available via our website, with chip cards also available on request. Larger A5 laminate samples are also available on request.
